

# ACADEMY LINK™

## A PARENT COMMUNICATION PORTAL

Communication between our academy and the families we serve has always been a priority at Kiddie Academy.

We are excited to tell you about *Academy Link* powered by Tadpoles, a communication portal that we are thrilled to have in our classrooms.

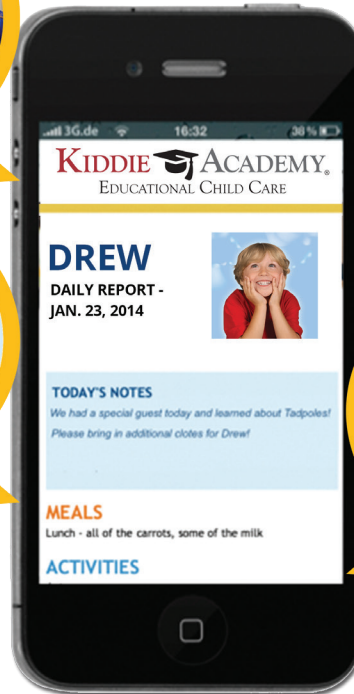

*Academy Link* utilizes mobile technology to provide:

- Real-time visibility
- Improved communication between our school and our parents
- First-hand look at classroom activities, important information, critical notifications, and documentation of developmental progress
- Parents receive teacher comments, photos and videos of their child's special moments

As a parent, you will receive the information via your email free of charge. In addition, you can choose to purchase the Tadpoles Parent app directly from the iTunes App Store. With the Tadpoles Parent app, you will be able to seamlessly share photos, view historical data and check reminders.

**DREW  
loves  
carrots!**

**Drew enjoys  
finger painting  
and the  
playground.**

All information captured using *Academy Link* is private. No personal information is shared with any external parties.

Classrooms teachers will be equipped with a tablet specifically used for the *Academy Link* program. The *Academy Link* program is a one-way communication from Kiddie Academy to parents.

Please let us know if you have any questions about this exciting program!
