

MEDICATION ORDER FORM

Regulations permit child care providers to dispense prescription and non-prescription medications to children in care under certain conditions. The academy must receive prior written permission from the child's parent; written authorization from the child's physician may also be required. If possible, arrange the time of dosage to be when the child is at home. **Fill out a separate form for each prescription or non-prescription drug to be dispensed to the child.**

NON-PRESCRIPTION MEDICATION: A child may receive only one dose of a non-prescription medication each day the child is in care, with the exception of topical medications such as creams and ointments. A licensed health care practitioner must approve the medication and dosage for the child to receive more than one dose during a single day. The non-prescription medication must be provided to the academy in its original packaging with dosage instructions intact.

PRESCRIPTION MEDICATION: Prescription medications must be stored in a container that has been labeled by the pharmacy or physician and which displays the child's name and an expiration date for the medication. The child may receive medication only according to the written instructions of the health care practitioner, as indicated in writing, or the instructions on the medication label and as provided below.

Name of Child: _____

This medication is being dispensed for the following condition(s): _____

MEDICATION	DOSAGE	HOUR GIVEN	DATES TO ADMINISTER	
			START	STOP

Additional Directions: _____
