

Bears October News Letter

The Loveable Bears had a great September. We welcomed everyone back to the new school year. We met some wonderful new friends, learned about Jan Brett, Kevin Henkes, and Donald Crews. In math we learned about graphing and ten frames. We began working on emergent readers and have a new letter each week. This month we will learn about Maurice Sendak, animals and their babies, pets, and autumn. We will also be learning about sorting, 3D shapes, and estimation. In science we will be doing some baking and experimenting. We will be working on letters f, h, l, and k. We will also continue four sight words a week.

Birthdays:

Parker- October 4th

Important Dates:

October 11 Closed

October 29th Fall Celebration
